The Nebraska delegation is in receipt of letters from officers of the Transmississippi Exposition association, urging united action on part of member and early aid from the government. In view of the fact that an organization has been perfected in Omaha, it has been determined by the delegation to have a meeting and canvass the situation, with a view of ascertaining the feeling among western senators and representatives.

This object may be greatly aided if the officers of the exposition will pave the way by personal letters to western senators and representatives, asking them to unite with the Nebraska delegation in securing gov-ernment recognition for the enterprise.

Senator Allen will probably address the senate on the Monroe doctrine Friday. Thomas C. Easterburg of Nebraska has resigned his position as compositor in the government printing office, and Charles L. Howe and Edward B. in the galleries.

The measion opened with an attempt to CALLS pass a bill to stop the "pugilistic festival" billed to take place near El Paso, Tex., on February 14. Mr. Catron, the delegate from New Mexico, asked unanimous consent for the consideration of the bill. Mr. Catron explained that it was notorious that the preparation for the series of fights now going on at El Paso could not take place there, but were to occur in the territory of New Mexico, which was within three miles of El Paso. The governor of New Mexico had publicly stated that he knew of no law to prevent the fights. There were less than fifty members at the light session of the house, but there was at least one interesting passage at arms, Mr. Pearson, republican of North Carolina, was urging the silver republicans to stand by their party, as the party that would solve the silver question in the interests of the largest circulation of silver consistent with the public credit. He spoke of those who were hoisting the red flag of anarchy and black flag of dynamite, and those, who, in South Carolina, under the leadership of a tyrant, were building their power in class hatred and race prejudice. He urged his silver republican friends in North Carolina not to join the populist party at the in-vitation of South Carolina.

A short but hot debate closed the struggle. Mr. Crisp, in satirical tones to the accompaniment of democratic applause, congratulated the house on its ability to transact public business. He had, he said, consulted members who had had long experience in the house and had made some inquiry himself and so far as he could learn, this was the first time in the history of

Whatever had been the misdoings of the last house it had never reached the point of impotency where it was unable to pass an appropriation bill. It had recently been said that congress was a board of aldermen for the district. "You, gentlemen," said he, addressing the republican side, "have written yourselves down as incapable of acting as a board of aldermen." (Laughter.)

Mr. Grosvenor in reply said that the difference between this house and the last was that this house was capable of rectifying its mistakes. He recalled, amid republican applause, that the democrats had passed a tariff bill and it had come back with 644 amendments, mistakes and blunders. Yet the democratic house had swallowed them at a guip and the punishment of the people was apparent from the present proportions of the other side.
